

Cash Your Bottles In (Lyrics by James McCarthy and Lesley Kline; music is to the tune of “Boil Them Cabbage Down”)

A D
Cash your bottles in, in

A E
Cash your bottles in

A D A E
Best thing we can do is cash our bottles in

Take ‘em down to recycling that’s a cool thing
Get Mom and Dad to do it too teach them how to sing

Cash your bottles in, in
Cash your bottles in
Best thing we can do is cash our bottles in

My island and my neighborhood I want to keep
Improvin’ ‘em
Every time you use a can recycle that aluminum

There’s a problem with the landfill it doesn’t have
To last
We can solve the problem by recycling our glass
