

Create a Habit (lyrics and music by Adela Chu)

Create a habit that's good for you
Create a habit! A good habit
By separating paper, metal, plastic and glass
The time that it takes won't make you late for class
Then hele down to the recycle station
You can save a forest, much less a nation!
Create a habit! A good habit
See, the problem that we're having is our island is small
If we fill the land with trash, there won't be room for all
And we'll be living in trash! Living in trash?
Uh-huh living in trash! Ugh
Sooooo pick it up
Cans bottles drinks pink plastic coffee cups
Pick it up
It's piling up -- Watcha gonna do?
Create a habit that's good for you
Create a habit! A good habit
