

Put Opala In Its Place (music and lyrics by Angie Libadisos Baker)

If you really love your City and County of Honolulu
And you want to make it pretty
Listen to this little ditty
Put opala in its place
When you cruise around the aina
And you know nothing could be finah
A little litter isn't minah
Put opala in its place
You've got to take that extra step
Be akamai now
You can do it – there's nothing to it
All you gotta do is really try now
So if you really love your aina
And you know nothing could be finah
A little litter isn't minah
Put opala in its place

So pick up that opala whenever its found
On the ground, all around
Hey, aluminum cans are a quarter a pound
And show Hawaii's keiki that you know how
To keep our beautiful aina from becoming pilau!
So put it, put it, put it in its place
Uddawise, eh, all us going be drowning in our waste
Let's keep it nice and clean out here in the Pacific
'Cuz livin' in Paradise sure is terrific!
