Describe Your Proposed Project

Project

Title: _____

Briefly describe the problem/issue your project will address:

What are the perceived Barriers and Benefits to your project:**

Briefly describe your project's goal/expected outcome/benefit:

Briefly describe your project plan. What will be involved in conducting/coordinating the work (Surveys? Focus Groups?)

What resources does your organization have available for this project?

What resources/support does your organization need? (Check all that apply.)

Equipment (describe)

Manpower/Staff (describe)

Education/Collateral Materials (describe)

Public Outreach/Media Coverage (describe)

Facilities (describe)

Other (describe)

Other (describe)

What is the total estimated cost of your proposed project?

What is the estimated cost of your request to the City?

Add any additional comments regarding your proposal or any other concern pertaining to illegal dumping

** To discover and uncover barriers and benefits, three steps are strongly suggested:
Step 1: Review relevant reports related to the topic of interest;
Step 2: Organize a focus groups and/or observational study to observe the target groups' behaviors around that issue;
Step 3: Create a survey from the focus groups and/or observational study. A survey can highlight the barriers and benefits to instituting an activity.
